Methodology

The survey of 1,200 Registered Voters was conducted by Scott Rasmussen using a mixed mode approach from May 14-16, 2020. Field work for the survey was conducted by RMG Research, Inc. Most respondents were contacted online while 238 were contacted using automated phone polling techniques. Certain quotas were applied and the overall sample was lightly weighted by geography, gender, age, race, education, and political party to reasonably reflect the nation’s population of Registered Voters. Other variables were reviewed to ensure that the final sample is representative of that population.
