	Black	12%	12%
	Hispanic	10%	11%
	Other	11%	6%
PARTY	Republican	33%	32%
	Democrat	35%	37%
	Other	32%	31%

Methodology

The survey of 1,200 Registered Voters was conducted by Scott Rasmussen using a mixed mode approach from August 27-29, 2020. Field work for the survey was conducted by RMG Research, Inc. Most respondents were contacted online or via text while 188 were contacted using automated phone polling techniques. Certain quotas were applied to the overall sample and lightly weighted by geography, gender, age, race, education, and political party to reasonably reflect the nation's population of Registered Voters. Other variables were reviewed to ensure that the final sample is representative of that population.

Likely voters were defined as those who say they are "Definitely going to vote" or "Very Likely to Vote" and who know how they will vote. The Likely Voter sample was 36% Republican, 39% Democrat, and 25% Independent.

A looser version of the Likely Voter screen showed Biden leading by eight, 50% to 42%. That sample included people who indicated they are at least Very Likely to vote but do not know how they will vote. That sample was 34% Republican, 40% Democrat, and 26% Independent

Conducted August 27-29, 2020 by Scott Rasmussen
Margin of Sampling Error: +/- 2.8 percentage points (for full sample)
+/- 3.2 percentage points for the Likely Voter sample
