	Democrat	33%	37%
	Other	32%	31%

## Methodology

The survey of 1,200 Registered Voters was conducted by Scott Rasmussen using a mixed mode approach from September 3-5, 2020. Field work for the survey was conducted by RMG Research, Inc. Most respondents were contacted online or via text while 186 were contacted using automated phone polling techniques. Certain quotas were applied to the overall sample and lightly weighted by geography, gender, age, race, education, and political party to reasonably reflect the nation’s population of Registered Voters. Other variables were reviewed to ensure that the final sample is representative of that population.

The sample included 942 Likely Voters were defined as those who say they are “Definitely going to vote” or “Very Likely to Vote” and who know how they will vote. The Likely Voter sample was 35% Republican, 39% Democrat, and 26% Independent.

Conducted September 3-5, 2020 by Scott Rasmussen  
Margin of Sampling Error: +/- 2.8 percentage points (for full sample)  
+/- 3.2 percentage points for the Likely Voter sample
