| PARTY | Republican | 31% | 32% |
| | Democrat | 35% | 37% |
| | Other | 34% | 31% |

Methodology

The survey of 1,200 Registered Voters was conducted by Scott Rasmussen using a mixed mode approach from September 10-12, 2020. Field work for the survey was conducted by RMG Research, Inc. Most respondents were contacted online or via text while 166 were contacted using automated phone polling techniques. Certain quotas were applied to the overall sample and lightly weighted by geography, gender, age, race, education, and political party to reasonably reflect the nation’s population of Registered Voters. Other variables were reviewed to ensure that the final sample is representative of that population.

The sample included 941 Likely Voters were defined as those who say they are “Definitely going to vote” or “Very Likely to Vote” and who know how they will vote. The Likely Voter sample was 36% Republican, 37% Democrat, and 27% Independent.
