Methodology

The survey of 1,200 Registered Voters was conducted by Scott Rasmussen using a mixed mode approach from November 19-21, 2020. Field work for the survey was conducted by RMG Research, Inc. Most respondents were contacted online or via text while 249 were contacted using automated phone polling techniques. Online respondents were selected from a list of Registered Voters and through a process of Random Digital Engagement. Certain quotas were applied to the larger sample and lightly weighted by geography, gender, age, race, education, and political party to reasonably reflect the nation's population of Registered Voters. Other variables were reviewed to ensure that the final sample is representative of that population.
