~~(S//NF)~~ The FBI also notes that Page continues to be active in meeting with media outlets to promote his theories of how U.S. foreign policy should be adjusted with regard to Russia and also to refute claims of his involvement with Russian Government efforts to influence the 2016 U.S. Presidential election. The FBI believes that Page may have been instructed by Russian officials to aggressively deny, especially in the media, any Russian involvement with the 2016 U.S. Presidential election. The FBI believes this approach is important because, from the Russian Government's point-of-view, it continues to keep the controversy of the election in the front of the American and world media, which has the effect of undermining the integrity of the U.S. electoral process and weakening the effectiveness of the current U.S. Administration. The FBI believes Page also may be seeking media attention in order to maintain momentum for potential book contracts.
