Gentlemen ... I have asked the National Security Advisor to see the FM and Sheikh Mohammad next WED/THU. I will advise immediately when I learn anything.

All the best ...

John

We should shift this conversation to WhatsApp.

I'll let Rick speak for himself regarding his legal restrictions in dealing with the USG. And if we want to kill this meeting in the West Wing before it's even scheduled, it will never happen if I am an attendee. If it happens, I can get a read out from the National Security Advisor and we can meet with the Qataris after.

Imaad and Rick ... I received a very respectful note back from the national security advisor, who told me that the Secretary of State Tillerson should be the one to see the Qataris, and that he declines to see them while they're in Washington. I wish this was better news. As McMaster said. the intent is for the administration to speak with one voice. That's why Tillerson has lead.

Imaad ... thank you again for facilitating what I think were very important talks with the Qataris. They couldn't have taken place without your leadership.

I deeply regret your treatment on SAT night. It was not right.

I hope the remainder of your travels were uneventful.

With great respect for what you're doing for our great country every day!

John Allen
