PRESS RELEASE-STATEMENT : Dr. Jeremy Henrichs

Dr. Henrichs appreciates that the IDFPR General Counsel, Dina Torrisi Martin, has apologized to him directly for the inappropriate tone and content of the communications directed to Dr. Henrichs and personally reached out to his counsel to explain the situation from the Department's perspective. He further acknowledges and appreciates the fact that acting IDFPR Secretary Mario Treto, Jr, has said, '[o]ur preliminary review of this complaint has concluded and the strong recommendation to the Medical Disciplinary Board will be that this complaint be closed' when the Board meets on September 1, 2021. He also wants his numerous family, friends, and the countless strangers who have come to his defense in the last week, to know just how much he genuinely appreciates their love and support. And while Dr. Henrichs looks forward to the Medical Disciplinary Board's formal closure of this complaint and getting back to seeing his patients, productive conversations as member of the Mahomet Seymour Board of Education, and, most of all, allowing his family to move forward without this awful distraction; until this complaint has, in fact, formally been dismissed, Dr. Henrichs has nothing further to say at this time."
