May Day Brigade

2/3

As a part of Armed Queers' international solidarity work, Armed Queers will be sending a couple of our members to Cuba as a part of a yearly May Day Brigade with the National Network on Cuba. Activists around the country will visit the island to learn from the Cuban people, bring back lessons to movements we are a part of, and engage in mutual aid work in solidarity with the Cuban people.

ermiyafanaeian Cuba, words cannot describe the power, steadfastness, and fervor that your revolution has created. Spending time in Cuba has made me, alongside my comrades, acutely aware of our duty in the belly of the beast. As the world struggles against the destruction the U.S. has been responsible for. Even under a 60+ year blockade, and constant attacks from the U.S., the Cuban people have shown what it means to never back down on our principles and vision for a better world!

armedqueersslc Moments of Armed Queers during this month's regular training session. Our members' skill development is holistic, focusing not only on becoming effective organizers in the struggle but also on gaining essential self-defense knowledge. Above all, we build these skills through a foundation of strong comradeship and united support.
